

- I/O COM = External I/O Common (-24V)
- Enable = Drive Enable = 10mA max
- Reset = Fault Reset = 10mA max
- I/O Power = External Power (+24V)
- ACOM = Analog Common
- ANALOG1 = Analog Output 1 = $\pm 10V/\pm 2mA$
- Input1 = Selectable Input 1 = 10mA max
- Output1 = Selectable Output 1 = 50mA max
